SHIFT PENALTY ISSUES UPDATE

The RTBU has been assisting members since the identification of anomalies with the payments for hours worked outside of normal hours.

A matter that remains outstanding is the inconsistency that the backpay for shift penalties was paid. At the Consultative Committee meeting on 22 September 2020, Management agreed to meet with RTBU representatives to explain the process used to calculate and pay the backpay and address any outstanding issues.

Every member deserves to be paid properly for the hard work they do. With this process coming to an end, it is important that any affected members review the breakdown they received and forward any further issues to Wayne Moody on wmoody@rtbu-nsw.asn.au or 0499 710 707 by no later than the 23 October 2020.
